La Veneziana, an engineered stone, is a tribute to the ever-changing, beautiful Venetian Terrazzo. The latest look in terrazzo materials is a substrate that, has pigmented polyester resin and granules, or "grit". For this collection, the “grit” is large, showing off the quartz, porcelain, granite, glass, or mosaic particles that make up the material.

TREND Terrazzo Origina is a series of terrazzo-like engineered stone tiles and slabs that includes numerous colors with recycled glass content. The grit, which is comprised of either quartz, porcelain, granite, glass, or mosaic, is crushed into nine different granule sizes. These granules are mixed with the pigmented polyester resin and spread onto a large sheet mold where the slab takes its shape.

WHY PORCELAIN?

There are many reasons to choose impervious porcelain tile over other floor coverings. It offers the largest array of design options and holds its value the longest. In a comparison between the many different flooring options, porcelain tile offers one of the most durable and least expensive options over the lifespan of the building.

Benefits of Porcelain Tile

• Impervious to water
• Easy to maintain
• Variety of design options
• Environmentally friendly
• Resistant to germs and bacteria
• Fade resistant
• Fire resistant
• Durable - best long-term value vs. other floor coverings
